

10th Annual

2024 Rich Earth Summit: Excretory Justice & Fertile Futures

November 12 - 14, 2024

Hybrid: Virtual (Zoom) and In-Person
(Rich Earth Hub in Marlboro, VT)

The Rich Earth Summit, hosted by Rich Earth Institute, is a global event dedicated to advancing urine reclamation to create sustainable and just nutrient cycles. This gathering brings together researchers, practitioners, and advocates to share knowledge and foster collaboration. Join us at the 10th annual Summit on November 12-14, 2024 – a golden opportunity to explore the transformative power of peecycling. Together, we can pee the change!

2024 Summit topics include:

- Urine treatment and processing research
- Virtual tours of urine recycling facilities
- Container-based systems and sanitation justice
- Urine-enriched biochar
- Urine fertilizer in sustainable agriculture
- Knowledge-sharing strategies
- Navigating policy and regulatory pathways
- Engaging youth in circular sanitation solutions
- Economic and social dynamics

KEYNOTE:

To Have Excretory Justice, We Have to Deal With Our Crap
Sarah Nahar, M.Div, Syracuse University
